

Summer Style Guide 2024

A juxtaposition to spring, summer is full of vibrancy and activity. We move at a faster pace, with excitement in every step, and adventure at every turn. The possibilities of summer are endless. This season, we offer the chance to enjoy the warm and refreshing color of an apricot or the whimsical and fun atmosphere of a garden party. Each collection captures the essence of summer in a different way, but both encourage us to embrace the natural world with vigor and life.

Apricot

vibrant · warm · refreshing

There is nothing like the first bite of a perfectly ripe fruit – bursting with flavor and texture and immediately igniting all the senses. Your eyes widen at the intense experience letting refreshment take over your being. A smile creeps onto your face as pure joy sets in with a warmth that is both familiar and nostalgic. It's summer summed up in one small experience.
